About Us

Specialising :

- Preservation of aircraft, vessel and equipment
- Corrosion Treatment and prevention
- Engineering services

Engineering Services

- Preservation
- Maintenance
- Anti-corrosion treatment
- Design tool and fixtures
- Aircraft Wash Rig

The Shrinkwrap Preservation System

Storage Problems

- Interior spaces
- Long-term storage
- Temporary storage
- Depreservation Cleaning
- Hazardous Materials
- Total System Cost
- Sensitive Equipment
 - Optics, electronics, CDs, hard drives, reactive materials, precision parts, rubber, specialized coatings
- Packaging Waste

Product:

***SACF Shrinkfilm (new)**

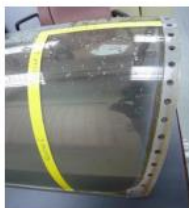

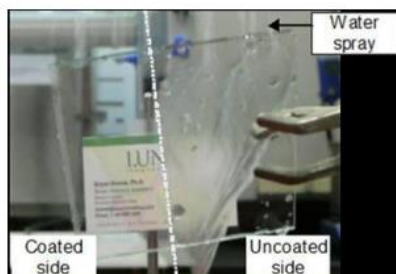

ACF 50 Coating
Protega Paint (3 in 1)
Protega Wax and DP

NEW! FPM SACF SHRINKFILM (Patent Pending)

- Long Lasting
- UV protection – Color Indicator
- Environmental Friendly
- Acts as a gas barrier - reacting with and neutralizing gases as they try to penetrate bag
- Acts as a preferential corrosion site inside the bag - creating a clean, micro-environment
- Act as sacrificial anode

Latest Product – Liquid Glass Coating for electronics and other surfaces – CCS-3

Coated

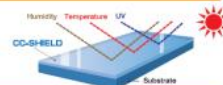

Non Coated

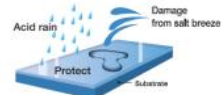

3 Excellent durability

CC-SHIELD shows the results of an excellent performance to protect from strong UV, temperature and humidity.

4 Acid resistance

CC-SHIELD protects your surface from acid rain, salt wind from the sea and various conditions protected with CC-SHIELD shut off rust and

5 Barrier property

CC-SHIELD protects your cars from stone powder, iron powder and other unseen particles for a long time making you satisfy. Scratch resistance test proved its excellent property with 9H pencil hardness.

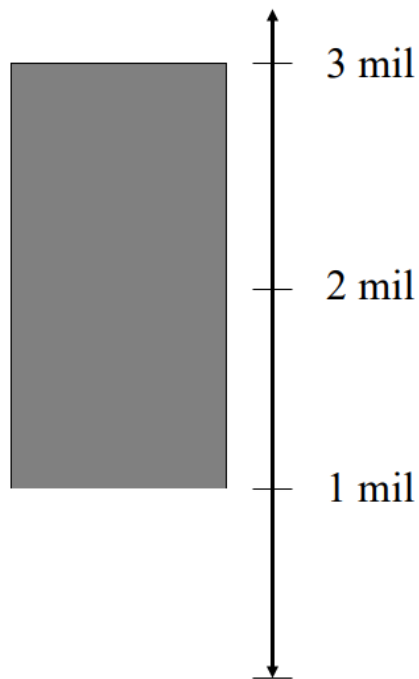

ROBAM COMPONENTS

Corrosive gas penetration

exposure at 7ppb

Takes Sulfur 5 years to
penetrate 0.001" of SACF.

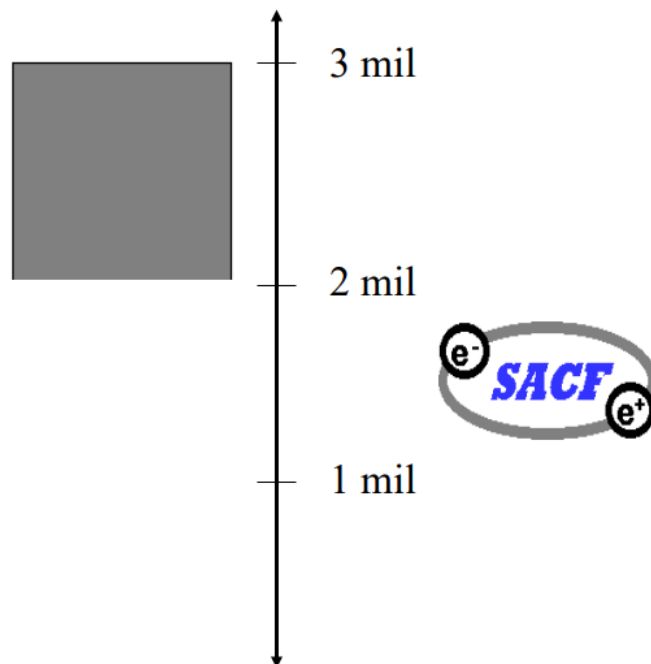

CHLORINE TEST

Years to break through –

5 years

1ppm chlorine time takes to
penetrate 2 mils plastic

For the Aircraft

For the Boats

For Military vehicles

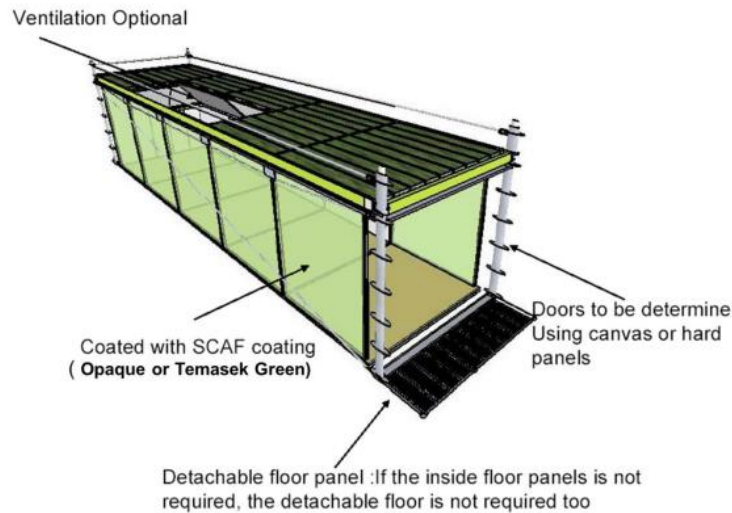

For Industrial equipment

Latest Innovation

PROPOSED DETACHABLE SHELTER

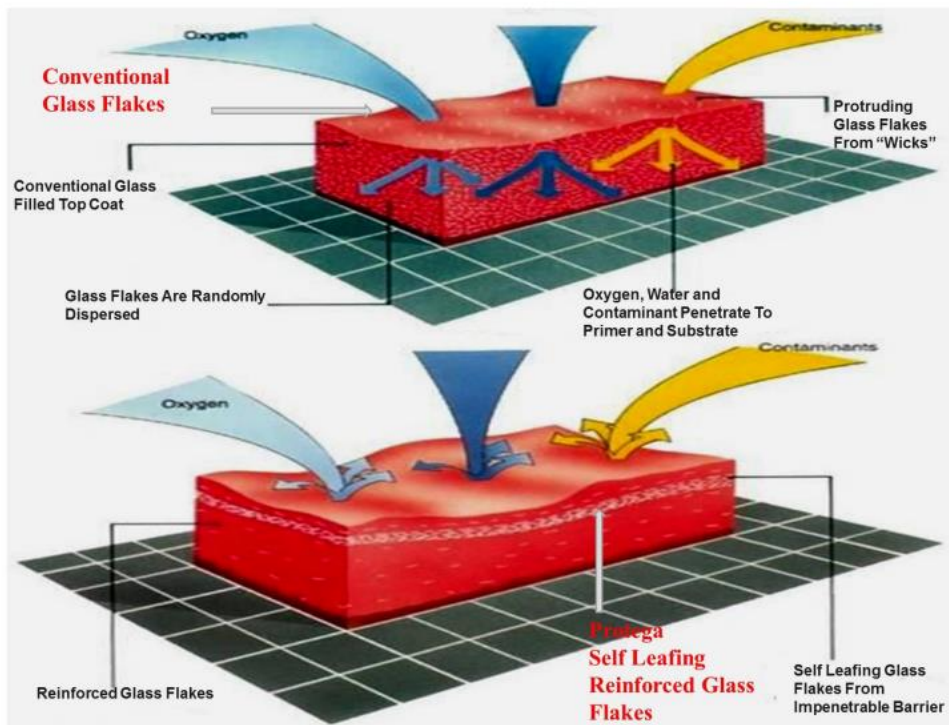

PROTEGA

Rust

Stabilization Technology

the paint industry's “best
kept secret”

ROBAM COMPONENTS

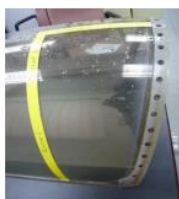

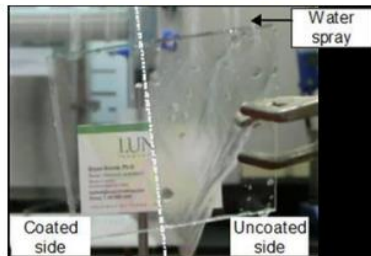

Advantages of 'THE PROTEGA SOLUTION'

- Ability to apply **OVER** firmly adherent rust.

- **NO NEED** for Expensive Grit or Wet Blasting.

5 Barrier property

CC-SHIELD protects your cars from stone powder, iron powder and other unseen particles for a long time making you satisfy. Scratch resistance test proved its excellent property with 9H pencil hardness.

FPM WASH RIG V2

Type of Preservation Concept

1. Active Preservation
2. Passive Preservation
3. Long Term Preservation

Type of treatment required

- a) Coating
- b) Shrinkwrapping + coating
- c) Vacuum Packing
- d) Sealing + Glass coating
- e) Outdoor / Indoor condition coating treatment

Location for storage : Outdoor / Indoor / Trans-shipment
